

What We Do

Northern Mono County Hospice (NMC Hospice) provides non-medical in-home respite care, emotional and spiritual support, practical assistance and comfort to individuals, their families and caregivers who are coping with a life limiting illness.

Northern Mono County Hospice's special competence stems from its rural character, utilizing volunteers who are especially committed to the concept of hospice care and who are an integral part of the community.

volunteer program
providing end-of-life
care and support.**

Volunteer Services

Volunteers trained to provide caring and supportive help are the heart of our program. Their sensitive and empathetic support makes it possible for clients and their family to regain the dignity and control of care during life's final journey.

When a client has decided medical treatments no longer offer a cure, NMC Hospice offers support to care for clients and families who are facing end-of-life considerations.

Our volunteer hospice offers physical, psychological, practical and spiritual support to individuals and to their families facing end-of-life issues. We are there to help during a very difficult time. Volunteers have been through this with their friends and relatives and have the knowledge and ability to bring many resources to help individuals, families and their caregivers to get through the process.

Support Our Program

As a non-profit charitable corporation, we raise funds from donations, grants, and special events. Your contributions expand our ability to care for individuals seeking our services and to continue to recruit and train volunteers. Including us in your charitable giving and including us in your will or trust supports our continued services and provides for your own remembrance.
